

Tribute FramePod™

The Tribute FramePod™ is a stylish and innovative ashes container to which a picture frame is attached to create a discreet and individual memorial.

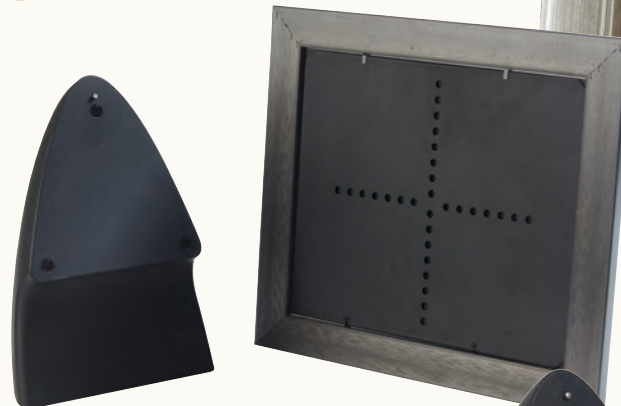

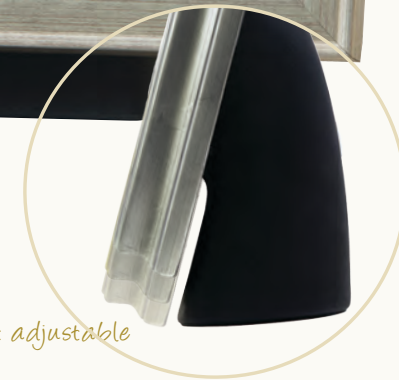

The ashes Pod, with its smoothly curving lines and dark matte textured finish, is pleasing to the eye, but barely noticeable behind the picture frame it supports.

The frame is attached to the Pod using our practical and easy to use magnetic system which is simple to set up using the Pod's locating pin and the alignment grid on the back of the frame.

The frame can be located in a variety of positions in either portrait or landscape mode, simply allow the magnetic face of the Pod to attach firmly to the frame back. The Pod's magnetic force is quite strong - sufficient to securely support a large frame.

Each FramePod is individually packaged in an attractive and discreet presentation box.
